PROFESSIONAL SUMMARY

Web developer with strong experience in React, TypeScript, JavaScript, HTML, CSS, and Python. Proficient in PyQt6 fundamentals, REST APIs, testing basics, and version-controlled development workflows.

Holds a Diploma in Software Development from Codespace Academy and continues to expand technical knowledge through certifications and self-driven projects. Brings 6+ years of digital production experience within high-pressure agency settings, including 3 years on dedicated, c-suite production initiatives

Adept at building structured workflows, facilitating inter-departmental collaboration, and problem-solving skills. Proficient at AI-assisted development (GitHub Copilot, ChatGPT) for reasoning, debugging, refactoring, and documentation.

CORE SKILLSPROJECTS*****

Technical Skills

Frontend Development: React (Components, Hooks), JavaScript (ES6+), TypeScript, HTML5 & CSS3, Responsive UI, SDK integration, PyQt6

Additional Skills

AI-Assisted Development: GitHub Copilot, ChatGPT, code generation & refactoring, documentation workflows

Backend / General: REST APIs & HTTP, Python, NPM, Yarn, Git & GitHub

Creative & Production Skills: Video editing (Premiere Pro, DaVinci Resolve), graphic design (Photoshop), sound engineering, digital asset optimisation

Databases: SQL (SQLite/PostgreSQL), NoSQL fundamentals, data modelling, fetching & structuring data

Professional Strengths: Clear communicator, fast learner, adaptable, calm under pressure

Testing & Quality: Unit testing basics, Jest (beginner), Debugging & troubleshooting, CI/CD basics (GitHub Actions)

React Component Library (TypeScript)

Built a reusable mini-component set to **practise** component architecture, props typing, bundling, and publishing workflows.

Simple Node.js REST API

Developed a ~~basic~~ Express API demonstrating routing, HTTP methods, JSON handling, and introductory Jest testing.

C# Console Utility App

Created a ~~small~~ .NET console tool demonstrating classes, logic structuring, and problem-solving fundamentals.

PROFESSIONAL EXPERIENCE

Strategy Advertising — Editor / Cinematographer / Content Manager

July 2022 – April 2025

- Built, updated, and maintained website content for major brands (Midea South Africa, BKB Ltd).
- Managed CMS structures, optimised assets, and ensured formatting consistency.
- Coordinated video/photography workflows and deliverables.
- Performed video editing, sound engineering, and graphic design.
- **Relevance to Development:** CMS experience, structured workflows, asset optimisation, technical troubleshooting.

FilmHouse — Editor / Cinematographer

Oct 2020 – Apr 2022

- Edited video content, handled sound, and created basic graphics.
- Managed Specsavers' frame photography catalogue with accuracy and consistency.
- **Relevance to Development:** Large-scale asset handling, metadata, naming conventions, workflow discipline.

NDP Multimedia — Videographer, Video Editor & Sound Engineer

Oct 2019 – Sep 2020

FilmHouse — Junior Video Editor & Sound Engineer

Mar 2019 – Oct 2019

Freelance Wedding Videographer & Editor

Jan 2019 – Mar 2019

Brand Marshal — Part-time Video Editor

2016

Woolworths — Shop Assistant

Dec 2017

Loligo's Seafood & Grill — Front of House

Dec 2014, 2015

EDUCATION

Codespace Academy

Diploma in Software Development — Completed

- Strong academic performance.
- Curriculum included React, JavaScript, TypeScript, HTML/CSS, software architecture, APIs, and testing.

AFDA Film School

BA in Film (2018)

Framesby High School

Matriculated (2015)
